

# Universe MACHINE

# Hog

This ruggedly designed machine provides the maximum production of shredded waste materials at the lowest cost per ton.

The unit is fully capable of shredding all types or species of wood & waste even when contaminated with rock.

The Universe HOG is built to the highest industry standards and our company complies with the stringent ISO 9000 quality assurance program.

Our hog is fully warranted, and backed by our company's reputation for meeting our customer's expectations since 1965.
